Data Security Review

“Of companies that had a major loss of computerized records – 43% never reopen, 51% close within two years and only 6% will survive long-term”

Management Information Systems for the Information Age

Cummings, Haag & McCubbrey 2005

Data loss can and does happen. It can result from hardware failure, flood, fire, security breach - or just an accidental deletion of an important file. Whatever the cause, taking precautions to reduce the impact is like an insurance policy, enabling your business to get back up and running quickly.

How can you protect your business?

- 1 **Protect your Desktop & Laptop computers**
- 2 **Keep your Data Safe**
- 3 **Use the Internet Safely**
- 4 **Protect your Network**
- 5 **Protect your Servers**
- 6 **Secure your line-of-business Applications**
- 7 **Manage Desktops and Laptops from the Server**

You may already be practicing some of the above recommendations. These are not “big budget” operations - they are common-sense precautions to take as part of your Business Continuity and Disaster Recovery planning.

How can we help you?

Plaza Redes SL will visit your offices and conduct a data and systems security review. This will take less than 2 hours. We will produce a summary of our findings and recommendations, at no cost or obligation to you.

We will look at a few basic concepts, such as: Password Security / Remote Access & open ports / Wireless Network Security / Data Backups / Anti-Virus, etc. / Hardware, Power & Telecoms redundancy / etc.

Who are we?

We operate from Centro Plaza in Nueva Andalucía. We perform over 70% of our business within 1km of our offices – ensuring rapid availability when you need us. A number of companies retain us under Service Level Agreements, including Stock Brokers in our offices – 10 minutes downtime can cost them thousands of Euros.

We can confidently claim to offer a level of Business Systems Support that is unmatched locally. Our prime location and resources are important – but our commitment to customer service is critical.
